SAF COALITION

THE SAF COALITION: AMERICA'S ALLIANCE FOR SUSTAINABLE AVIATION FUEL

Powering American Energy, Agriculture, and Aviation Innovation

The Sustainable Aviation Fuel (SAF) Coalition is a nonprofit, nonpartisan coalition of over 50 airlines, energy producers, manufacturers, technology developers, airports, and other stakeholders working to **accelerate the development and deployment of sustainable aviation fuels in the United States.** Together, our members represent the full SAF value chain and are united behind policies that **strengthen America's energy leadership and economic competitiveness.**

THE SAF COALITION AT A GLANCE

A BROAD COALITION DRIVING AMERICAN LEADERSHIP IN SAF:

50+

50+ member organizations across the SAF value chain

Airlines, aircraft manufacturers, airports, technology developers, SAF and biofuels producers, and agricultural leaders

est. 2024

Established in 2024 to advocate for policies that accelerate SAF deployment in the United States

WHY SAF MATTERS

SAF is one of the most immediate opportunities to strengthen U.S. energy, support rural economies, and keep America at the forefront of aviation innovation. **SAF CAN:**

- Support American energy leadership and domestic fuel production
- Create new markets for American farmers and feedstock producers
- Generate jobs and investment in rural communities
- Help meet growing aviation demand with lower-carbon fuel
- Blend seamlessly with conventional jet fuel for use in existing aircraft and infrastructure

ADVANCING AMERICAN LEADERSHIP IN SAF

The SAF Coalition works with Congress and the Administration to advance policies that accelerate domestic SAF production and strengthen American competitiveness in the global fuel market.

KEY POLICY PRIORITIES INCLUDE:

Expand SAF production

Support tax policies that encourage private investment and scale American-made SAF

Support American agriculture

Promote diverse feedstocks including crops, waste, biomass, and captured carbon sources

Reduce barriers to deployment

Improve permitting, regulatory clarity, and infrastructure development

ECONOMIC OPPORTUNITY FOR AMERICA

With the right policies in place, the United States can lead the world in SAF development and deployment.

SCALING SAF PRODUCTION CAN:

Strengthen American energy security

Support domestic manufacturing and innovation

Create American jobs and new markets for farmers and rural communities

Position the United States as a global leader in sustainable aviation fuels

COLLABORATION ACROSS THE AVIATION AND ENERGY VALUE CHAIN

The SAF Coalition members work together to accelerate investment, expand production, and advocate for federal policies that help the United States lead in the emerging SAF marketplace.

BUILDING A STRONGER AMERICAN ENERGY FUTURE
THROUGH SUSTAINABLE AVIATION FUEL.
